Gwendolyn J.Y. Chee

Contact Information

PhD Student
University of Illinois at Urbana-Champaign
Nuclear, Plasma, and Radiological Engineering

e-mail: gchee2@illinois.com
github: github.com/gwenchee
linkedin: linkedin.com/in/gwenchee/

Research Interests

Advanced nuclear reactors, multi-physics simulation, nuclear fuel cycle analysis, scientific computation, high performance computing

PhD

University of Illinois at Urbana-Champaign, Nuclear Engineering **Jan 2020 - Present**

- Leveraging Machine Learning for Generative Reactor Designs
- Advisor: Professor Kathryn D. Huff
- Graduate Concentration in Computational Science and Engineering

MS

University of Illinois at Urbana-Champaign, Nuclear Engineering **Aug 2017 - Dec 2019**

- Thesis: Sensitivity Analysis of Nuclear Fuel Cycle Transitions
- Advisor: Professor Kathryn D. Huff

BASc

Queens University at Kingston, Canada, Engineering Physics **Sept 2013 – May 2017**

- Thesis: Designing a System to Gaseous Hydrogen Charge Zirconium Alloys
- Concentration in Material Science

Research Experience

University of Illinois at Urbana-Champaign, Urbana, IL **Aug 2017 – Present**
Graduate Research Assistant, Nuclear Plasma and Radiological Engineering

- Leveraging artificial intelligence genetic algorithms to optimize fluoride salt-cooled reactor geometry using Python package DEAP, and open-source OpenMC and Moltres tools
- Collaborated with 14 scientists to benchmark the Fluoride-salt High-temperature Reactor by modeling the design in OpenMC
- Led analysis, code and test development of the "Demand-Driven Cycamore Archetypes" NEUP project to construct demand-driven deployment algorithms and time series models in Python and C++ open-source tools, d3ploy and Cyclus

Argonne National Laboratory, Lemont, IL **June 2020 - Aug 2020**
Research Aide, Advanced Nuclear Energy Systems Group

- Implemented variable salt-feed functionality and tests in ANL's NQA-1 certified Reactor Fuel Management and Depletion Python tool, ADDER
- Conducted a code verification of ADDER's MSR depletion capability against published results from SCALE

Argonne National Laboratory, Lemont, IL **May 2019 - Aug 2019**
Research Aide, Reactor Physics and Fuel Cycle Analysis Group

- Investigated fuel cycle sensitivity analysis and optimization methods for the Department of Energy's Nuclear Fuel Cycle Options Campaign by coupling ANL's fuel cycle simulator, Dymond, with Sandia National Lab's optimization and uncertainty quantification tool, Dakota, using Python

Queens University at Kingston, Canada, Kingston, ON **Sept 2016 - May 2017**
Research Assistant, Nuclear Materials Research Group

- Designed a Sieverts Apparatus to gaseously charge hydrogen gas into zirconium alloys to mimic hydrogen embrittlement of zirconium alloys used in nuclear reactors.

National University of Singapore, Singapore **May 2016 - Aug 2016**
Research Assistant, Centre for Advanced 2D Materials

- Developed a MATLAB script to study the effect of Berry Curvature on electrons in graphene and the effects of changing the geometry of graphene devices on their electric fields.

Nanyang Technological University, Singapore **May 2015 - Aug 2015**
Research Assistant, Polymeric Biomaterials Group

- Conducted experiments to characterize nanoparticle enhanced polymer materials

Honors and Awards

Women in Nuclear Chapter Excellence Award **2019**
Queen's University Dean Scholar **2014-2017**
Queen's University Principal's Entrance Scholarship **2013**

Engineering Teaching

University of Illinois at Urbana-Champaign
Dept. of Nuclear, Plasma, and Radiological Engineering
NPRE 412, Nuclear Power Economics and Fuel Management **Spring 2020**
Teaching Assistant, Marked Assignments and taught three 1-hour classes

Queen's University at Kingston
Dept. of Physics, Engineering Physics, and Astronomy
PHYS 104/106, Fundamental Physics **Fall 2015 - Spring 2017**
Teaching Assistant, Conducted weekly office hours

Scientific Computing Skills

Languages	Python, C++, bash, CUDA, XML
Build Systems	make, CMake
Databases	HDF5, SQL
Test Frameworks	pytest, nose
Version Control	git, svn
Other Tools	MS Virtual Studio, Sphinx, RAI, LaTeX, MatLab
Nuclear Software	OpenMC, MCNP, MOOSE, Moltres, Cyclus, DYMOND

Editing and Reviewing

Manuscript Referee — *International Journal of Energy Research*

Professional Service

Advisor, Women in Nuclear (UIUC Chapter) **2020-Present**

President, Women in Nuclear (UIUC Chapter) **2019-2020**

Professional Development Chair, Women in Nuclear (UIUC Chapter) **2018-2019**

Departmental Service

Graduate Student Advisory Committee **2020-Present**
